HEALTHCARE INDUSTRY LOOKS TO BETTER MANAGE COMPLEXITY

Continuing tools sprawl and lack of meaningful metrics hinder progress

15+ Average number of IT security tools at a healthcare organization

37% TOOLS CONSIDERED VITAL TO PRIMARY OBJECTIVES

REASONS FOR DEACTIVATING TOOLS IN THE PAST 12 MONTHS:

- **62%** Tool no longer needed to deliver desired security outcomes
- **46%** Tool did not integrate well with other tools
- **31%** Tool was not providing ROI for stated purpose

SECURITY DECISION MAKERS AGREE:

- **62%** Number of security technologies in use is increasing our level of risk
- **58%** Adding security technologies faster than we are adding the capacity to productively use them
- **58%** Security team loses time managing the growing number of security tools in use
- **46%** Resources will continue to remain the same in the next 12 months

BUT **77%** EXPECT THE NUMBER OF TOOLS TO INCREASE IN THE NEXT 12 MONTHS!

METRICS FALL SHORT OF MEASURING EFFICACIES AND ROI:

- **46%** Number of vulnerabilities
- **46%** Tool functionality
- **35%** Host infections to date

WHAT SECURITY TEAMS IN THE HEALTHCARE INDUSTRY WANT:

- **96%** Integration/Automation of disparate tools
- **93%** Better visibility across tools
- **50%** Ability to report security posture to Board

HOW RELIAQUEST GREYMATTER DELIVERS:

- Singular visibility by integrating your tools
- Automation across the entire security lifecycle
- Actionable metrics that matter
